

Extension Lecture on 'Use of Bioenzyme'

An Extension lecture organized on 26 August 2022 by water Conservation Cell under SAP (Swachhta Action Plan) in collaboration of EBSB Club for creating awareness among students that how we can save water by taking small steps in our daily life. This lecture was given by Assistant professor Renu Gupta of Education department . She provided wonderful knowledge to the students that how they can use their green waste at home to make bio enzyme and use that for house cleaning rather than chemical products. At the end of this lecture all the present faculties as well as students took the oath to save water and encourage our near and dear to save water. This lecture was organised under the able guidance of Principal Dr. Karamjit Kaur . Ms. Renu Gupta, Ms. Navjit kaur and Ms. Poonam Sharma were organizers of this event.

Glimpses of the Event
