Best Practice Practice No: II

Title: Awareness Programme on Earthquake

Earthquakes are unique challenges for everyone in present context. Unlike other natural or man-hazards, they occur with no warning. No educational institutes can be closed in advance, nor evacuated. So mitigate this problem everyone in our community can be prepared to react appropriately during and after an earthquake, with appropriate supplies on hand. Fulfilling this objective our college has organized an awareness programme on Earthquake- a Natural Calamity. During this awareness programme a healthy interaction was taken place between our students, teachers and the resource persons. He guided the students about the precautions that should be taken during earthquake i.e. don't lose your consciousness and even control on your emotions because most accidents are happened due to unconsciousness and a person's impatient reactions. So handle this Natural calamity with proper awareness
